CENTROID

CENTROID'S LIFT AND SHIFT SERVICE FOR ORACLE PUBLIC CLOUD

Does your organization need to quickly and confidently move workloads to the Public Cloud to meet rapid environment provisioning demands? Centroid created the Lift and Shift service for Oracle Public Cloud to help your organization accelerate the transition to the Cloud leveraging Centroid's extensive Oracle experience, leading practices and proven delivery approach.

Provision and Manage Elements: Faster, Smarter, and more Efficiently

Centroid can help you realize the value of cloud computing faster by moving your on-premise environments to the cloud. Centroid will review, inventory and provide a road-map of which workloads are best suited to move to the cloud. We will then provision and configure the required services and migrate the workload to the Oracle Compute Service instances. Centroid will then provide full knowledge transfer of the migrations, configurations and skills to enable future deployments in Oracle Cloud.

LIFT AND SHIFT PHASES

CloudAdvisor
Identifies which workloads are best suited to move to the cloud.

CloudMigrator
Quickly 'Lifts & Shifts' workloads to the cloud.

CloudManager
Allows customers to manage and monitor the entire stack.

Why Centroid Consulting?

LEADING EXPERTISE
Oracle Experts providing thought leadership for every Oracle Solution

MANY INDUSTRY AWARDS
16+ Oracle Specializations, and 200+ certifications

PROVEN METHODOLOGY
Based on industry standards providing high quality results across complex projects

FLEXIBLE DELIVERY
On-site, off-site and offshore along with Expert Services

How We Are Different:
Cloud Expertise and Experience

Centroid has been in business for over 20 years and is exclusively focused on Oracle technologies. We have the experts that others turn to for best practices in Oracle applications, technology and hardware implementations. We know how to best migrate and manage your workloads on-premise or in the Cloud and can maximize your Oracle investment and provide your business with tightly integrated, comprehensive, and superior services.

KEY BENEFITS

- Migrate any workload quickly and cost effectively
- 45% to 55% reduction in Total IT expenditures
- Faster availability of workloads for business and IT projects
- Ability to scale on-demand
- Guaranteed results

KEY DELIVERABLES

- Workshop to provide a blueprint road-map that identifies which workloads are best suited to move to the Cloud
- Inventory of applications and technology and their interdependencies
- Provisioned Cloud Instances to run the environment workload
- Migrated workloads
- Options to Manage the workload 24x7 including maintenance, patching, performance and tuning, and consumption and performance analytics

KEY FEATURES

- Cloud services architected to address "any" workload
- Migrate "any" workload to the cloud
- Turn-Key Service from blueprint to migration to managed service
- Knowledge transfer on provisioning, migrations and cloud management
