CENTROID'S KUBERNETES CLOUD

Run your workloads efficiently on our Secure, Compliant, Managed Kubernetes Cloud.

Centroid's Kubernetes Cloud ensures your business applications can be safely run in the cloud. We ensure your data is safe with nightly offsite backups, end-to-end encryption, and real-time monitoring and alerting. Best of all, our team of site reliability engineers can be made available 24x7 with tight SLAs to ensure availability in the event of incidents.

Secure and Compliant

- **End-to-end encryption** of traffic from your customer's machine to load balancers to the applications themselves, as well as encryption between applications, means you are set up to be compliant with common government regulations in the healthcare and financial industries.
- **Change management** is employed in our production environments with all changes being tracked and managed, preparing your organization to be fully compliant.

Your Business is Safe

- **Nightly offsite backups of your code** into cold storage.
- **Nightly offsite backups of your data.** This includes things like file storage and SQL databases.
- **Active monitoring** and health checking of your application means we usually know when something is down before you do!
- **A 24x7 SRE team** is available to respond to incidents. (Please note: this depends on SLA contract)

- **Self-healing** infrastructure automatically reboots, redeploys, scales, or shifts load as required to ensure your application is alive and responsive.
- **Redundant design** means no single point of failure to ensure high levels of availability.

Your Team is Efficient

- **Continuous Integration and Continuous Delivery** of software for your development team from writing code to deploying test environments to promoting to production, all with automation that ensures secure and efficient delivery of software.
- **Key vaults** employed to ensure production access keys are tightly controlled.
- **Active directory integration** to ensure developers only have access to the projects they are working on and no others.

ABOUT CENTROID

Headquartered in Troy, Michigan, Centroid is a provider of managed cloud services and enterprise workload consulting services across the major Hyperscalers. With expert resources throughout the United States, South America, and India for 24/7 support, the company employs roughly 450+ people. Centroid is recognized at the highest level of alliance relationship with Oracle for nearly 25+ years and is one of Oracle's leading cloud service providers in North America. In addition, Gartner has recognized Centroid in 2021, 2022, and 2023 in their Market Guide for Oracle Cloud Infrastructure Professional and Managed Services.
